## Cambridge English: Advanced - test day photos required from November 2011

From November 2011 all candidates taking **Cambridge English: Advanced (CAE)** will be required to have their photograph taken on the day of their test.

We are introducing this because of the increase in candidates using their **Cambridge English: Advanced** qualification for immigration purposes and applying for work, university and college.

Test day photos ensure that the exam is secure and is even more trusted and valued. Photos taken on the day of the test are made available on the Results Verification Service website along with test results.

Candidates can control who can access their results and view their photo by giving their Candidate ID number and Candidate secret number to universities, employers and other organisation they want to be able to verify their results.

### Cambridge English: Advanced

is also known as Certificate in Advanced English (CAE).
