

CAMBRIDGE ESOL PUBLICATIONS PRICE LIST

INTRODUCTION

This list includes information on past paper packs and other publications available from Cambridge ESOL which will be of use to candidates preparing for the Cambridge ESOL examinations, and to their teachers.

Please note that many publishers also produce textbooks and other resources specifically written to help candidates prepare for the Cambridge ESOL examinations. A list of publishers is available from our website – www.cambridgeesol.org/support/publishers.htm.

There are different video formats available. You can tell which one you need to order by looking on a commercial video cassette that works in your video player. As a rough guide:

PAL is the format used in most of Europe

SECAM is the format used in France and often in Russia

NTSC is the format used in North America, much of Latin America, Japan and some other Asian countries.

Please note that because some papers are withheld for use as part of Cambridge ESOL's research and validation work, the Paper 3 supplied in some packs may not be the version originally used in the administration of the examination.
